Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Please understand that the current taxes and regulation fees are also in addition to the costs of the appliance and monthly fee, which has been paid for with an already high taxed income in our household. If the FCC needs more funds to run its government programs, then an indepth look into spending should be analized and spending cuts implemented. Enough is enough. Every one needs to tighten up on spending, even the FCC.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Sandra Johnson
